...take the challenge...

Brugg - Aargau

The two world record holder Manuel Zöllig (SLRG Baden-Brugg) and Pascal Stöckli (SLRG Innerschwyz) invite you to probably the fastest race of the Lifesaving Sports history.

The concept of Speedlifesaving is easy. The official ILS Pool Lifesaving disciplines, which are designed for a 50 m Olympic pool will be reduced by 50% and held in a 25 meter pool. In addition, certain performance measures have been removed but the disciplines have to be performed generally compared to the ILS Rulebook. SpeedLifeSaving is the fastest and most powerful variant of a Pool Lifesaving Event.

After the pandemic-related (COVID-19) failure last year, we will try to be there for you again with our competition in 2021. A definitive decision as to whether we can hold the competition can only be made in spring 2021. However, we are confident that this will be possible and looking forward to seeing you again on the probably fastest race of Lifesaving sports in history.

We are looking forward to seeing you again in Brugg.
